Report:

On November 25, 2022, the Eco Club of Tecnía Institute of Advanced Studies (TIAS) organized an insightful and enriching field visit to Neel Hauz Biodiversity Park, a hidden gem of Delhi known for its rich biodiversity and environmental significance. The event, titled "Exploring Neel Hauz Biodiversity Park: Delhi's Green Oasis", aimed to educate participants on the critical role urban biodiversity plays in maintaining ecological balance, as well as the importance of conserving natural spaces in the heart of the city.

The event commenced with a guided nature walk led by biodiversity experts and park officials. During the walk, participants were introduced to the park's various ecosystems, including wetlands, grasslands, and forested areas. Experts highlighted the significance of each ecosystem in supporting a wide range of flora and fauna. Participants learned about the native plant species that thrive in the park and their role in supporting

	<p>Delhi's wildlife, including birds, insects, and small mammals.</p> <p>The event, "Exploring Neel Hauz Biodiversity Park: Delhi's Green Oasis", organized by the Eco Club of TIAS, was a successful and impactful initiative that provided participants with a deep understanding of urban biodiversity and the role it plays in maintaining ecological balance. The guided nature walk, biodiversity identification sessions, and discussions on environmental challenges all contributed to a comprehensive learning experience.</p> <p>The visit inspired participants to take a more active role in environmental conservation, not only by understanding the issues but also by committing to making a difference. By exploring Neel Hauz, participants discovered that urban biodiversity parks are not only oases of green in bustling cities but also vital spaces that offer valuable ecological services and serve as havens for wildlife. The event served as a reminder that preserving such natural spaces is essential for the health of both the environment and urban communities.</p>
