Sapling Plantation in District Park

Volunteers after the successful drive

Report:

In celebration of **World Environment Day**, the **NSS Cell of Tecnia Institute of Advanced Studies, Rohini**, in collaboration with the **Padam Vibhushan Aditya Nath Memorial Trust**, organized a tree plantation drive on **June 5, 2023**. Observed annually on June 5, **World Environment Day (WED)** aims to raise awareness and promote action for environmental protection. This significant day is supported by various non-governmental organizations, businesses, and government agencies, making it the primary United Nations outreach day for environmental issues.

Since its inception in **1973**, World Environment Day has served as a platform to highlight critical environmental concerns, including marine pollution, overpopulation, global warming, sustainable development, and wildlife crime. Each year, the event engages over **143 countries**, providing a unique opportunity for public outreach and awareness. The program designates a specific theme and venue, enabling corporations, non-profit organizations, communities, governments, and celebrities to advocate for environmental issues collectively.

The **2023 theme** for World Environment Day is **"Solutions to Plastic Pollution,"** with **Côte d'Ivoire** serving as the host nation. This theme emphasizes the importance of individual and collective actions in addressing plastic pollution and the significant impact these actions can have. It underscores the need for governments and businesses to intensify their efforts to combat
