Get educated, spread awareness

#HIVEducation #EndTheStigma"

Empower yourself and others by learning the facts

Report: Description in (min 250 to max 800 words)*

On 8th Feb. 2023, Tecnia Institute of Advanced Studies conducted an outreach activity titled "Youth and HIV: What You Need to Know." The primary objective of the session was to educate young students about HIV/AIDS, debunk prevalent myths, and foster a sense of responsibility and empathy towards those living with the disease. The event was conducted to create awareness of HIV AIDS among the students of the Government Girls Senior Secondary School. Dr. Sheenu Arora, program officer RRC, TIAS highlighted the fact that the world is facing new virus each day.

Ms. Karishma provided an insightful and interactive session that covered essential topics, including the transmission, prevention, and treatment of HIV. She emphasized the importance of practicing safe behaviors and encouraged regular testing, especially for sexually active individuals. Ms. Sheenu also provided an insight on public health, discussed the psychological and social challenges faced by individuals living with HIV, stressing the need for compassion and support within society.

The session also included interactive segments where students engaged in role-playing to understand various real-life scenarios related to HIV transmission and how to respond. These activities helped break down the stigma associated with HIV and fostered open communication about the topic.

Students were encouraged to ask questions, and the session ended with a highly informative Q&A, where Dr. Arora addressed several myths and misconceptions, emphasizing that HIV is not a death sentence and that people living with HIV can lead healthy, fulfilling lives with proper treatment.

The event was well-received, by students and faculty members in attendance. The session played a significant role in creating awareness,

	<p>educating the youth, and promoting safe practices, thus helping combat the spread of HIV/AIDS.</p> <p>The session was promoted on social media via Instagram and Facebook to reach a broader audience and ensure the message extended beyond the campus. Overall, the outreach activity served as an impactful platform to equip youth with essential knowledge about HIV/AIDS and how to take proactive steps in preventing it.</p>
